Description of change planned:

City of Windom – MN (OCN—105D) plans to re-home (move) its end office from the WNDMMNWI12T Qwest access tandem to the Onvoy access tandems. Originating interLATA traffic/Oriinating wireless traffic will be served by the **MPLSMNCD08T** access tandem immediately upon trunk group completions. The point code for **MPLSMNCD08T** is **222-101-006**. Terminating interLATA/Terminating wireless traffic will be served by the **PLMOMNBN03T** access tandem immediately upon trunk group completions. The point code for **PLMOMNBN03T** is **222-102-002**. The following office and NPA-NXX is affected by the rehome:

SWITCH	RATE CENTER	NPA-NXX
WNDMMN02DS0	WINDOM	507-832

Description of Reasonably Foreseeable Impact of the Planned Change:

Carriers will need to update their network switch translations when network rearrangements and central office code activity occur for the affected NPANXXs. Carriers which are not interconnected to the **MPLSMNCD08T** or **PLMOMNBN03T** access tandems will need to issue Access Service Requests (ASRs) ordering trunks to the new access tandem. ASRs need to be submitted no later than August 29, 2009. The following project name should be listed on the ASR: **WINDOM_Rehome**.

As of 9/29/2009 Qwest can be expected to block originating and terminating toll and wireless calls at the WNDMMNWI12T access tandem for the above End Office. The **MPLSMNCD08T** and **PLMOMNBN03T** access tandems will begin to complete originating and terminating toll and wireless calls for the above end offices at that time. If an interconnecting carrier does not establish trunks to **MPLSMNCD08T** or **PLMOMNBN03T** calls will not be originated from/terminated to the carrier.
